
When it matters most, trust the toughness of Tyvek®.

For a lightweight yet strong, water-resistant alternative to traditional envelopes, trust DuPont™ Tyvek®. This virtually indestructible material protects from even the roughest handling, but at the same

time remains lighter than paper envelopes. And since it's a versatile printing medium with a distinctive look and feel, your company's important documents can stand out while standing up to delivery-related abuse.

Tyvek®
Protect What's Inside.™

TYVEK® FEATURES

DuPont™ Tyvek® envelopes are strong and durable. They easily withstand the most grueling conditions. In fact, they are lightweight, water resistant and virtually indestructible, because they aren't paper—they're Tyvek®. Add Papercone's high-quality printing, and you can set yourself apart from the crowd.

- **Immediately Recognized**

Financial institutions and law firms prefer using Tyvek over traditional mailers.

- **Lightweight and Strong**

Tyvek is lighter than most envelope papers. Gain potential savings on postage while upgrading the look of your mailings.

- **Water and Moisture Resistant**

Tyvek protects against the elements.

- **Tear and Puncture Resistant**

Mail and ship with confidence. Tyvek is virtually indestructible.

- **Recyclable**

Tyvek is 100% recyclable with an average of 10% post-industrial content.

Protect What's Inside.™

STRONGER THAN PAPER, MORE VERSATILE AND LIGHTWEIGHT THAN CARDBOARD. DuPont™ Tyvek® delivers a unique combination of lightweight strength, versatility and excellent print quality needed to protect your important documents – and help enhance your company's image.
